

BC GLOBAL ENERGY™

PREMIUM SOFTWOOD HEATING PELLETS - CANADA

PRODUCT DATA SHEET | Revision 1.1 | 16 September 2026

PRODUCT OVERVIEW

Untreated softwood pellets manufactured in Thornloe, Northern Ontario for reliable, consistent heat in compatible pellet-burning equipment. Production is focused on controlled moisture, consistent pellet form and dependable combustion performance.

KEY BENEFITS

- Made in Canada from selected softwood fibre
- No artificial chemical binders added
- Canadian 40 lb / 18.14 kg retail format

PUBLISHED SPECIFICATIONS

Parameter	Published specification
Pellet diameter	6 mm nominal
Moisture content	≤ 10.0%
Ash content (dry basis)	≤ 0.70%
Mechanical durability	> 97.0%
Raw material	Selected untreated softwood fibre
Artificial chemical binders	None added

PACKAGING AND SUPPLY

Format	Net weight	Configuration
Retail bag	40 lb / 18.14 kg	60 bags/skid - approx. 1,089 kg net

Actual payload remains subject to vehicle, axle-weight and applicable transportation requirements.

RECOMMENDED USE, STORAGE AND HANDLING

Use only in compatible equipment and follow the equipment manufacturer's instructions. Store clean, dry and protected from rain, snow, standing water and excessive humidity. Handle carefully to reduce fines.

QUALITY, CERTIFICATION AND INDUSTRY AFFILIATION

WPAC: BC Global Energy Inc. has submitted an application for membership in the Wood Pellet Association of Canada. The application is currently under review, and BC Global Energy Inc. does not yet represent itself as a WPAC member.

Intertek: BC Global Energy Inc. is working with Intertek in connection with its FSC® Chain of Custody and ISO 9001 certification processes. These certifications have not yet been granted, and no certification is claimed until formally issued.

Independent laboratory: product testing and quality documentation are being coordinated with Biomass Energy Lab (BEL), a division of Timber Products Inspection, Inc. Batch-specific results or a COA must not be published until formally issued or approved.

PRODUCT DOCUMENTATION

Document	Application
Product Data Sheet - Canada	Canadian 40 lb / 18.14 kg bag
SDS - Packaged Product Canada	Sealed 40 lb / 18.14 kg bag
Certificate of Analysis (COA)	As available for the applicable batch

Notice: wood is a natural material and characteristics may vary within established tolerances. Published values are not batch-specific guarantees unless expressly confirmed in writing.
